Nital Shah

Founder and Chief Operating Officer (COO) at Uplers

Nital is Founder and Chief Operating Officer (COO) at Uplers. He is responsible for driving global operations, streamlining processes & systems, and aligning people practices to make hiring, and getting hired, reliable, simple, and fast for Uplers' clients and the talent in its Talent Network.

Nital has spent 10 years in Sydney, Australia, where he got an amazing exposure working with several well-known brands. His exposure of working across cultures helps the Uplers team to overcome usual cross-border culture alignment issues and serve clients better. His love for India brought him back to the country, after a long and successful stay of over a decade, as creating opportunities for India and Indian talent has been his core passion.

He is proud of the amazing remote team culture of trust, flexibility and ownership at Uplers. He firmly believes that Uplers owes its growth trajectory to a focused customer centric approach and strong relationships with its people, clients, talent in its Network, partners & vendors. In the organization's journey of scaling up, he works constantly to ensure that the business holds on to the agile mindset and DNA of continuous learning. As a passionate entrepreneur and leader, his drive is to create growth opportunities for everyone associated with the business.
